- Node.js
- MVC

Exams

Academic Personnel and Graduate Education Entrance Exam (ALES)

2023/1

78,31/100

About Me

Hello, I am a graduate of Erciyes University Computer Engineering and Mechatronics Engineering, I graduated in 2023. Throughout my education and experiences, I tried to gain experience in many areas such as Frontend development (React and TypeScript), web development (React and JavaScript), cross-platform mobile application development and Arduino coding. My problem-solving abilities and passion for technology reflect my determination to successfully manage complex projects and learn new skills. I look forward to taking part in forward-looking projects and contributing to the world of technology.

Work Experience
